Dear Gerry, gnocchi

Thanks for the explanation of the Afterword and the enclosures with your 5/25.

Be interested in the responses to those letters.

On the theft from David Lui, it is a little complicated. But the first call I had about Case Open was from a man who said, Fantastic! about that and added that he'd checked it out and then he said, Fantiastic again. I was able to spot it because I remembered David Lui from those stories I'd been sent.

By now you should know that Posner and his pimp were mute when confronted with the affidavit from Case Open.

On Honenko and the CIA, my title was Hoax:the Gerald Posner/Random House/CIA JFK Aasassination Exploitation.

Do I remember correctly that you'd mentioned a trip to see Dennis and that you might stop off on the way back? If so, about when so I can make a note of it and keep that time clear.

Thanks and best to you all,

Harold
